

REAVON

REAVON UBR-X100

Video features

- 4K Scaling - Enhance the home cinema experience by quadrupling Full HD 1080p resolution with 4K (3840 x 2160) scaling of all video sources.
- True 24p Cinema - Many Blu-ray and 4K Ultra HD Blu-ray discs are encoded at 24 frames per second, the same frequency as the original film screened in theaters. The UBR-X200 maintains the original 24-fps rate straight through to the screen with progressive scanning.
- Dolby Vision® - This stunning HDR imaging technology brings extraordinary color, contrast, and brightness to the screen.
- Video Adjust - Set the brightness, contrast, color saturation, hue, sharpness and noise reduction.
